

JOB DESCRIPTION

JOB TITLE:	Psychological Wellbeing Practitioner (Low Intensity Therapist)
BASIC QUALIFICATION:	Qualified IAPT PWP (Low Intensity Therapist)
REPORTS TO:	Clinical Team Leader
ACCOUNTABLE TO:	Service Manager

Mission Statement

Trent Psychological Therapy Services (Trent PTS) is focused on a single aim: providing life-enhancing and meaningful psychological interventions, which improve the emotional, mental and social wellbeing of all clients who choose our services. Respect, expertise and integrity are the basis of our approach to delivering our healthcare services, with our clients at the centre of the decisions we make together.

Job Summary

You will be a qualified IAPT Low Intensity Therapist (PWP). You will be actively committed to developing your skills in cognitive behavioural therapy in a primary care mental health setting. You will provide a Primary Care Psychological Therapies Service to customers of Trent PTS with common mental health problems such as anxiety and depression, mainly of a mild to moderate severity and impact, primarily Steps 1 and 2 (Stepped Care).

You will deliver high quality, high volume, evidence-based low intensity therapy which will be short term and primarily cognitive behavioural and self-management interventions. These interventions will be delivered primarily by the telephone, CBT and in a group format.

Key Responsibilities

Manage an allocated clinical caseload in collaboration with the Line Manager.

Deliver low intensity, evidence based cognitive behavioural interventions for service users with mild to moderate mental health problems, including:

- Guided Self Help
- Behavioural Activation
- Problem Solving
- Psycho-education
- Group Treatments – modular CBT workshops
- Computerised Cognitive Behavioural Therapy (cCBT)
- Prescribing of CBT Self Help books ('Books on Prescription')
- Signposting to appropriate agencies

- Provide symptom monitoring, medication advice and behavioural guidance to service users prescribed antidepressant medication.
- Conduct mental health assessments, psychological assessments and Risk Assessments. Formulate and implement Risk Management plans following Trent PTS Service's Risk Assessment & Risk Management policies and procedures.
- Coordinate signposting to alternative support or advisory services as appropriate and monitor the effectiveness of this intervention by follow up.
- Refer service users to Clinical Team Leaders if they are presenting with severe or complex conditions or risk, require complex medication advice, or who may need to be referred to Secondary Care Services.
- Ensure that other clinical personnel involved in the treatment and care of service users are aware of all relevant issues in the clinical management of their care, including a history of violence to self or others and current or potential risk of violence to self or others.

Administration

- Electronically record data regarding individual patient contact activity and service activity using Trent PTS electronic Patient Management Systems.
- Maintain up to date and accurate electronic patient records in accordance with Trent PTS policies and procedures.
- Implement the IAPT national outcomes monitoring system, implementing IAPT session-by-session symptom measures.
- Collate and electronically record IAPT assessment and treatment outcomes and IAPT patient satisfaction data for national benchmarking in accordance with Trent PTS IAPT contract requirements.

Liaison & Consultation

- Actively participate in regular liaison and consultation with Trent PTS Clinical Team, and other Specialist Teams as required, in order to facilitate seamless access to Primary and Secondary Care Mental Health Services.

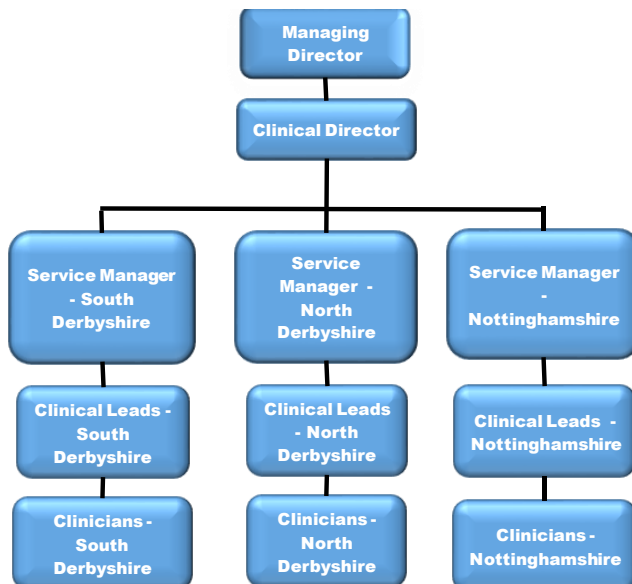

Clinical Supervision & Case Management

- Actively participate in regular Clinical Supervision and clinical skills training in relation to Psychological Therapies from a qualified and experienced Psychological Therapist.
- Receive regular Clinical Supervision from an experienced Psychological Wellbeing Practitioner in relation to the delivery of Cognitive Behavioural interventions by all delivery methods.
- Receive regular Case Management Supervision from the Line Manager.

Clinical Governance

The post holder will be expected to:

- Maintain and develop clinical knowledge and clinical expertise.
- Actively participate in regular clinical and managerial supervision.
- Maintain accurate electronic records of clinical work so as to allow the effective monitoring, review, audit and evaluation of the service provided.
- Collate and electronically record assessment and outcome measures and patient satisfaction data for service audit and national benchmarking.
- Participate in the effective monitoring, review and evaluation of the service provided.
- Participate in audit and research as required.
